Website Project Proposal To help you plan your project effectively, create a detailed project proposal. You are required to demonstrate your ability to think critically and creatively and, therefore, will need to submit two different project proposals for two different target organisations. Each proposal should be approximately 300-500 words.

Formatting Guidelines:

- **Use a clear and consistent font (Aptos) and font size (11).**
- **Line-spacing should be set to 1.5.**
- **The cover page should include: the subject name and code, your full name, student number, and group (if applicable).**
- **A formatted Table of Contents.**
- **Use headings and subheadings to organise the document.**
- **Use bullet points and numbered lists to structure information.**
- **Use screenshots or diagrams to illustrate complex concepts.**

- ✞ **Proofread carefully to ensure accuracy and clarity.**

Proposal Content:

If the storyline is fictional, you would still be required to present realistic content for the fictional client.

Organisation Overview Company Background

Milo's Plumbing is a locally owned plumbing service company based in Yuma, Arizona. The company provides residential and commercial plumbing services, including maintenance, repairs, installations, and emergency services. Established to meet the growing demand for reliable plumbing solutions, Milo's Plumbing has built a reputation for quality workmanship and customer satisfaction.

Mission Statement

To deliver reliable, affordable, and high-quality plumbing services while ensuring customer satisfaction through professionalism and efficiency.

Vision Statement

To become the most trusted plumbing service provider in Yuma, Arizona, known for excellence, integrity, and innovation.

Target Audience

- Homeowners in Yuma, AZ
- Small and medium-sized businesses
- Property managers
- Construction companies

Website Goals and Objectives

Goals

- Increase online visibility in the local market
- Generate service inquiries and bookings
- Provide detailed information about services
- Build trust through customer testimonials

Key Performance Indicators (KPIs)

- Website traffic growth (monthly visitors)
- Number of service bookings
- Contact form submissions
- Conversion rate
- Customer engagement metrics (time on site, pages viewed)

Current Website Analysis

Strengths

- Established business reputation
- Clear service offerings

Weaknesses

- Limited or no online presence
- Lack of mobile-friendly design
- No online booking system
- Minimal customer engagement tools

Areas for Improvement

- Develop a modern, responsive website
- Improve accessibility and usability
- Add booking and contact features
- Implement local SEO strategies

Proposed Website Features and Functionality

Core Pages

- Home Page
- About Us
- Services Page

- Contact Page
- Testimonials Page

Key Features

- Click-to-call functionality
- Online booking/request form
- 🛠 Detailed service listings
- Customer reviews and testimonials
- Google Maps integration
- Emergency service highlight section

Design and User Experience

Colour Scheme

- Primary: Blue (trust and reliability)
- Secondary: White (clean and simple)
- Accent: Red (urgency for emergency services)

Typography

- Headings: Arial / Helvetica (bold and clear)
- Body Text: Aptos / Calibri (readable and professional)

Layout and Design

- Clean and professional layout
- Emphasis on easy navigation
- Clear call-to-action buttons (e.g., “Book Now”, “Call Us”)

User Experience Considerations

- Mobile-first design
- Fast loading times
- Simple navigation menu
- Accessibility for all users

Wireframe

5.5 Wireframe (Low-Fidelity Layout)

[Header: Logo | Navigation Menu | Call Button]
[Hero Section: Plumbing Services + CTA Button]
[Services Section: Icons with descriptions]
[Testimonials Section]
[Booking Form Section]
[Footer: Contact Info | Location Map | Social Links]

Technical Requirements

Hosting & Domain

- Domain: www.milosplumbingyuma.com
- Hosting: Reliable provider (e.g., Bluehost, GoDaddy)

Technologies

- HTML5
- CSS3
- JavaScript
- Optional: WordPress CMS

Timeline and Milestones

Phase	Task	Duration
Week 1	Research & Planning	5 days
Week 2	Design (Wireframes & Layout)	5 days
Week 3	Development	7 days
Week 4	Testing & Deployment	5 days

Budget

Item	Estimated Cost
Domain Registration	R280/year
Hosting	R2,220/year
Development	R14,800
Maintenance	R925/month

Total Estimated Cost: ~R17,300+
